

LED Worklamp

Part number: 497335

The popular VigiLED directional LED lamp is now available as a worklamp. The intense constant white light from the 36 LED heads outputs an extremely bright 545 Candelas (max). Available as both surface and bracket mount this compact (measuring 72mm x 72mm) LED worklamp will fit onto the smallest surfaces, perfect for mounting on many different vehicles from CV and recovery vehicles to refuse trucks and material handling.

Features

- Surface or bracket mount
- Dual voltage 12/24V
- High brightness 100,000 hour rated LEDs
- IP69K rated - able to withstand high-pressure and steam cleaning
- Dim function
- Ultra low power consumption - 6W
- Integral electronics - no need for separate power supply or control unit
- Polycarbonate lens and base
- Operating temperature: -30°C to +55 °C
